## Welcome back!

### ***The Two Falcons ...***

Once there was a king who received a gift of two magnificent falcons from Arabia. They were peregrine falcons, the most beautiful birds he had ever seen. He gave the precious birds to his head falconer to be trained.

Months passed and one day the head falconer informed the king that though one of the falcons was flying majestically, soaring high in the sky, the other bird had not moved from its branch since the day it had arrived.

The king summoned healers and sorcerers from all the land to tend to the falcon, but no one could make the bird fly. He presented the task to the member of his court, but the next day, the king saw through the palace window that the bird had still not moved from its perch. Having tried everything else, the king thought to himself, "May be I need someone more familiar with the countryside to understand the nature of this problem." So he cried out to his court, "Go and get a farmer."

In the morning, the king was thrilled to see the falcon soaring high above the palace gardens. He said to his court, "Bring me the doer of this miracle."

## Continued...

The court quickly located the farmer, who came and stood before the king. The king asked him, "How did you make the falcon fly?"

With head bowed, the farmer said to the king, "It was very easy, your highness. I simply cut the branch of the tree where the bird was sitting."

We are all made to fly - to realise our incredible potential as human beings. But instead of doing that, we sit on our branches, clinging to the things that are familiar to us. The possibilities are endless, but for most of us, they remain undiscovered. We conform to the familiar, the comfortable, the mundane. So for the most part, our lives are mediocre instead of exciting, thrilling and fulfilling. So let us learn to destroy the branch of fear we cling to and free ourselves to the glory of flight.

## Win a Kitchen Kart valued at \$25,000 for Carmel Primary!

Did you know research shows kids who cook are more likely to make healthy choices than those who aren't involved in cooking?

Not only does cooking help kids understand what foods go together but also why we eat the foods we do and what we need to eat for a balanced diet. Because balanced diets help kids live healthy active lives.

Thanks to a partnership between Nestlé Healthy Active Kids program, the Australian Institute of Sport (AIS) and Get Kids Cooking, parents and carers are given the opportunity to nominate their child's school to win The Kitchen Kart™, a fully equipped mobile teaching kitchen valued at \$25,000. The winning entrant will also receive a \$1,000 VISA Load&Go Gift Card to go towards keeping their family healthy and active!
