## MESSAGE FROM THE PRINCIPAL

Greetings friends,

A good friend of mine has been given the task/responsibility/job to market the small city in which he lives in North Queensland. On his latest FB post he has written the quote 'Growth is never by chance; it is the result of forces working together' (James Cash Penny).

Fun fact. Every day I pray that our 'little school' will grow, so we can better meet the needs that the world is crying out for. That is, people who are fully equipped to serve people and meet the needs of an ever-demanding world.

There are many ways that we are doing this a whole lot better than we have in the recent past, but we do need to make this a 'together' thing. All the clichés ring true on this, together we are stronger, together we can do more, together we become one, but this is something we all have to make happen. As the quote says, it won't happen by chance.

So... where to from here? If you want to see us grow, if you want to see us continue to improve and if you want to see us become all that we could and should be, then please, please come and tell me how you would like to contribute.

You are an amazing parent body and you have amazing kids! Let us all be amazing together.

**Mr Nicholas Thomson**  
**Principal**

## THE SCIENCE OF CELLS

Year 8 Scientists have been busy making models of eukaryote cells for an assignment. They have done an outstanding job. These models are on display in Room 17 for the remainder of the week.

## THE SWEET TASTE OF SUCCESS

Most sixteen year olds complain about having to wake up early and go to school, but not Haylea!

Haylea, a current year 11 student, has recently embarked on a momentous adventure attending TAFE every Friday and building up her work experience at Dome every Thursday. At the end of the year, after she has finished her unit, Haylea will start her eighteen month apprenticeship at the high-class Crown resort located on the Swan River, where she will be able to work in one of the many restaurants as a chef.

Even though Haylea is away from school two days a week she is still able to get an education from Monday through to Wednesday. And, believe it or not, Haylea's TAFE and work experience helps her earn points for WACE that she will need in order to get her Certificate of Education.

With the guidance of Mr Flynn, Haylea told us in chapel all about training and becoming a chef, all the work and preparation, and all of the safety regulations in order to have a safe kitchen and workplace. Hard work truly does pay off. Congratulations Haylea!

**SARAYAH**

*Year 10 Student*

## CONDOLENCES

We would like to send our deepest condolences to the Watson and Ellis family, who lost their father and grandfather at the end of last term. Mr Les Vernon, was one of those generous people who contributed to our school in many ways, and over many years.

From donating piles of earth to help create fill for our driveway development, to helping clear land with his earth moving equipment, Mr Vernon always found practical ways to bless our school community, and we are very grateful.

Students will probably remember him most for helping get them a day off school, after an underground pipe he and Mr Smoker were working near, burst, and we ended up with no water! The kids were very grateful for a 3-day weekend.

Carmel College has been very lucky to have a man like Mr Vernon care about our school, and he will be missed.

## YEAR 10 PATHWAYS NIGHT

Year 10 is an important time for students to consider the first career they would like to pursue after school.

Once students have a career goal, the next step is for them to work out how to get there!

In Year 11 and 12 at Carmel, we customise each student's study pathway to help them achieve their study and career goals.

We have a special **Year 10 Information Night - 7pm Tuesday 23 May**, to explain the different Senior pathway options and how students can choose the best one for them.

We encourage all Year 10 students and parents to attend the Information Night next Tuesday.

**Mr Brad Flynn**  
*Director of Studies*

## IMPORTANT FEE REMINDERS

**Option B** fee payments are are not longer eligible for the prompt payment discount. You will need to add the \$22.75 to the payment amount indicated for each term's payment.

*Mrs Naomi Thomas*  
*Bursar*

## SECONDARY ASSISTANCE

Due to a processing delay, you may not see your Secondary Assistance credited until July.

## CHEMISTRY COMPETITION!

Students in years 7 to 10 that are interested in Science, or would like to take Science in senior school, are encouraged to enter the Annual National Chemistry Quiz. This gives students valuable practise at completing difficult questions under test conditions without it affecting their grade.

To ensure enrolment, students must hand their permission slips with \$2 to the front office by Monday May 29.
